

SZ Stranding Premise Cable Jacketing Line

EP-JRL 01/12SZ Stranding Premise Cable Jacketing Line

Contiguration

- Centre strength member pay-off
- 12m cooling wate trough
- Dual wheel tension control device
- Air wipe
- 12 tight buffer pay-off
- Diameter gauge
- SZ oscillator
- Inkjet printer(optional)
- Binder
- 800 dual wheel capstan
- 24Reels Kevlar servers or 15 Reels parallel kovlar servers
- Swing arm tension control dovice
- SJ45*25 extruder
- 630 take-up
- 4m heating water trough and recycling system
- Electrical control system

Item	Unit	Technical data
Line speed	m/min	≤60
Outer diameter of tight buffer	mm	φ0.6~1
Qty. of pay-off for tight buffer		12
Reel size of pay-off tight buffer		PN400
Reel size of pay-off for certre strength member		PN630
Qty. of Kevlar pay-off		24
Revolution of Kevlar server	rpm	≤120
